

PETITION REQUESTING INSTALLATION OF RESIDENTIAL PERMIT PARKING

PLEASE INDICATE LOCATION PROPOSED FOR INSTALLATION OF RESIDENTIAL PERMIT PARKING (Example: 400 block of E Dale Avenue):

As indicated below, we do or do not support ParkFlag (the City of Flagstaff) performing the necessary occupancy surveys and installing Residential Permit Parking in the location indicated above. We have read and understand that if supported by a majority of the affected property owners and installed, that parking restrictions and parking enforcement will be increased per the currently adopted City of Flagstaff Comprehensive Parking Management Plan and the Administrative Guidelines of the Comprehensive Parking Management Plan. We understand that only one permit will be issued per water meter and will only be issued to the water meter customer.

If installed, we request the following configuration (Prior to obtaining signatures, please check one box and cross-out lines with un-checked boxes):

- Option 1 – Two-hour time limited parking in entire area served and permits exempt permit holder from time limit, or
- Option 2 - Open parking ½ of each side of street, and resident parking only (permit required) on remainder of the street, or
- Option 3 - Two-hour time limited parking ½ of each side of street, and resident parking only (permit required) on remainder of the street.

Please print legibly and include all water meters in the area proposed, even if other information or a signature is not obtained.

Water Meters (Water Customer Information)						Vote	
Meter Number	Service Address	First Name	Last Name	Email Address	Signature	Yes	No

Note: ParkFlag staff or Utilities Division staff can assist with the identification of water meter numbers on any particular street segment.
